

Server Error in '/' Application.

Runtime Error

Description: An application error occurred on the server. The current custom error settings for this application prevent the details of the application error from being viewed remotely (for security reasons). It could, however, be viewed by browsers running on the local machine.

Details: To enable the details of this specific error message to be viewable on remote machines, please create a <customErrors> tag within a 'web.config' configuration file located in the root directory of the current web application. This <customErrors> tag should then look like the following:

```
<!-- Web.Config Configuration File -->
<configuration>
  <system.web>
    <customErrors mode="Off"/>
  </system.web>
</configuration>
```

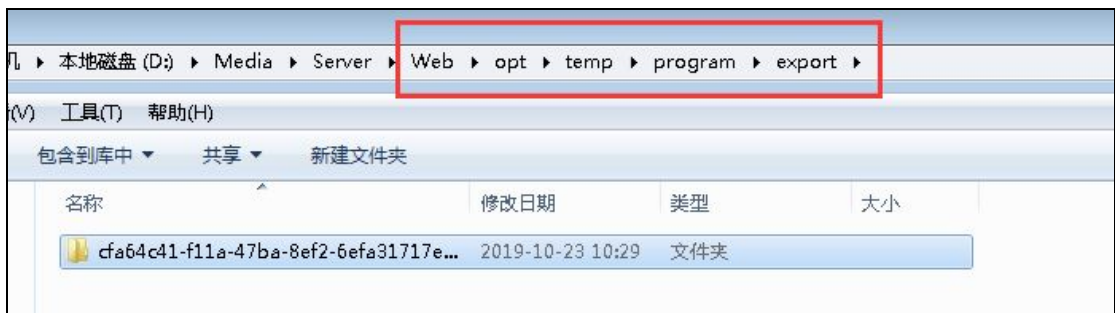

Notes: The current error page you are seeing can be replaced by a custom error page by modifying the 'defaultRedirect' attribute of the application's <customErrors> configuration tag to point to a custom error page URL.

```
<!-- Web.Config Configuration File -->
<configuration>
  <system.web>
    <customErrors mode="RemoteOnly" defaultRedirect="mycustompage.htm"/>
  </system.web>
</configuration>
```

1、打开服务端安装目录；

2、进入到节目打包目录下；

3、在文件夹中找到节目压缩包（查看文件夹修改时间，一般是最接近当前时间那个文件夹为节目存放目录）。

名称	修改日期	类型	大小
超大节目	2019-10-23 10:26	文件夹	
超大节目.zip	2019-10-23 10:35	WinRAR ZIP 压缩...	3,563,752...
